To Pre-Register your player, go to www.eayso.org and create a user log-in by choosing “first time” and then make sure you choose the appropriate Region (see below for Region numbers). If you have registered through eAYSO in the past then just go to Log-In. This does not complete the registration process, you will then print the registration form and any other Region specific forms (see the Region websites for more information) and take them to the registration along with payment and a copy of the player’s proof of age (only needed for new players).
